YU-XIANG LUO

SOFTWARE ENGINEER

📞 (+886) 908780503   @ linus13514@gmail.com   💻 yuxianglo.github.io

SUMMARY

Skilled in data structures, algorithms, system programming, and (deep) machine learning. Experience in full-stack development and familiar with Docker, Git, miniconda. Eager to contribute to a software engineering team.

TECHNICAL SKILLS

- C/C++
- Python
- React.js
- Express.js
- MongoDB
- Shell Script
- Git
- Docker
- Conda

Programming

Coding

Machine Learning

Operating System

ABOUT ME

Computer Science undergraduate at National Taiwan University with expertise in Large Language Models (LLM). Adept at harnessing AI research to create user centric solutions. Committed to innovation and practical application of theoretical knowledge.

EDUCATION

- **2021-NOW**
  NATIONAL TAIWAN UNIVERSITY
  Undergraduate in computer science

EXPERIENCE

- **2022**
  FULL STACK WEB PROJECT
  In charge of middleware and backend.
  github.com/YuXiangLo/full-stack-web

- **2023**
  APCS CAMP
  Lecturer of APCS camp.
  - APCS camp aims to improve students' programming and coding skills.

- **2023-2024**
  ACADEMIA SINICA
  Research Assistant at institute of information science.

- **2024-NOW**
  TAIWAN AI LABS (MUSIC TEAM)
  Machine Learning Engineering Intern
